

CAX NBCD ASSESSMENT

CWO3 S. SHORTT
MSGT P. FRAZIER

Agenda

- Outline the concept of development for the CAX NBCD assessment package
 - Proposed Assessment Areas
 - Proposed Training Initiatives
 - POA & M

Purpose for NBC Assessment

- Implement NBC training at the MAGTF level to ensure mission readiness
- Systems Approach to Training concept of Crawl-Walk-Run

Intent

To train the Exercise Force in the tactics, techniques and procedures of MAGTF NBC Defense with emphasis on

- Sense (Contamination Avoidance)
- Shape (Battle Management)
- Shield (Protection)
- Sustain (Decontamination)

Proposed Assessment Areas

- MOS, Command and MAGTF level
- NBCD Operations
 - Reconnaissance (types and techniques)
 - Protection (individual and collective)
 - Decontamination (echelons and principles)
 - Contamination Avoidance

Training Plan

BLOCK I COMBINED ARMS EXERCISE

<u>CLASS</u>	<u>METLS</u>	<u>REF</u>
(T1) NBC IPB	5700-SHP-3002	MCRP 3-37.1A
VULNERABILITY ANALYSIS	5700-SHP-3003	MCRP 3-37.1A
STAFF PLANNING FOR NBC	5700-SHP-3004	MCO
RECON ORG CAPABILITIES AND EQUIP	5700-SHP-3001	MCWP 3-
NBC RECON OPERATIONS	5700-SHP-3002	MCWP 3-
STAFF PLANNING FOR RECON	5700-SHP-3003	MCWP 3-
MEU SOC (DURING MEU CAX ONLY)	5700-SHP-3015	MCO
(T2) JMETLs		CJCSM 3500.04B
DEPLETED URANIUM		MCWP 3-37.2
NBCW&RS	5700-SHP-3010	MCRP 3-37A
NBCCC (CHEM-BIO)	5700-SHP-3006/07	MCRP 3-37.2A
NBCCC (NUC)	5700-SHP-3008	MCRP 3-
(T3) DECON OPERATIONS	5700-SUS-3001	MCWP 3-37.3
THOROUGH DECON	5700-SUS-3004	MCWP 3-37.3
SPECIAL DECON OPERATIONS	5700-SUS-3005	MCWP 3-37.3

POA&M Macro Outlook

- **CAX 1/2: (Oct-Nov)**

- Observation by TTECG NBC representatives to identify potential assessment areas and NBCD integration opportunities (HAC, FINEX) available given the current CAX POI.

- **Transition Between CAX (Nov-Dec)**

- Results from observation will be compiled into a Talking Paper that addresses future integration opportunities.

- **CAX 3/4 (Jan-Feb)**

- Introduction of NBCD unique classes to 5702/11 (Completed)

- Integration into HAC scenarios and execution (No HAC)

- Due to no HAC integrated into LAR screen

- **CAX 5/6 (Apr-May)**

- Integration into FINEX scenarios and execution (No FINEX)

- Continue to build upon CAX 3/4 assessment areas

POA&M Macro Outlook

- **CAX 7 through 10:** Continued refinement on assessments and events will be conducted during remaining CAX evolutions with a focus on integrating NBCD into additional CAX events (MAC, HAC).

- Intent is a building block approach that will not overstretch the MAGTF or TTECG staffing and resources.

- Due to the Marine Corps deployment to OIF the CAX program has went to a 10 day package. There is no NBC being conducted during these packages and the next unit that has asked for any additional training will not be coming until CAX 5 of 2005 (March)

SUMMARY

- The intent is to utilize the Crawl-Walk-Run approach in the development of the NBCD assessment tool in order to ensure basic skill sets are mastered, (warning and reporting, overlays, etc.), before moving on to more advanced skill sets (tactical employment during the HAC and FINEX).
